

A warm welcome back to Primary 5 and I hope everyone had a relaxing break. Another busy term ahead, with Ski-ing , Class Assembly and Christmas coming up.

Literacy

Literacy circles are going well and the children are learning to work independently. This will continue to develop their discussion, summarising and analysis skills.

Writing will continue with a focus on functional writing, linking in with our topic. The children will also be working on developing their editing skills.

Numeracy/Maths

This term we will be continuing with time and looking closer at 5 minute intervals and duration of time .

We will be re-visiting multiplication and looking at the links with division. This will include tables practise.

Following on from our shape work, we will be learning all about symmetry.

Interdisciplinary Learning

This term we will be looking at food and What's for Tea topic. This will look at labelling, planning healthy diets and hopefully developing their food preparation skills.

Health & Wellbeing

Children will cover a large part of their physical activity during Ski-ing this term . Please make sure they come on a Wednesday with a packed lunch and warm clothing.

P.E. will continue with Mrs Jones on a Wednesday as normal.

I look forward to continue working with you all.
Ms Gordon
