

# Learning and Celebrating

## Primary 5/6 Term 4 Newsletter

The final term has arrived already and the hard work continues. There are lots of exciting activities and events happening. Looking forward to a busy but fun term ahead!

### Literacy

In writing we will be doing a mixture of personal and imaginative pieces. We will be looking at how to develop characterisation and setting in order to extend our writing.

In our reading groups we will be continuing to build on reading skills and reading homework will be set weekly.

### Numeracy

We have a bit more work to do on fractions and decimals this term. We will also be working on using addition, subtraction, division and multiplication in different word problems. We will continue to focus on times tables weekly.

In Maths, we will be measuring weight, length and capacity.

### Interdisciplinary Learning

This term our topic is Space and we will be exploring space and our solar system. We will start from what the children already know by sharing this and then building on our knowledge from there. This will involve research, group tasks, artwork tasks and many other activities. This is always an interesting and fun topic which I'm sure the children will enjoy.

### Health and Wellbeing

P5/6 continues to have P.E with Mrs Jones on a Wednesday. We will also be working with P.E students from Edinburgh College. This will be outside so joggers and a jumper can be worn.

Keeping Ourselves Safe is a series of lessons and activities which plan to introduce pupils to strategies they can use when facing difficult situations and choices as they become more independent.

### Other Information

P6 had a great start to the term at Benmore and had an amazing few days trying out new activities. Well done everyone!

Music Specialist - Tuesdays

Please ensure that children complete Linking Our Learning activities and let me know of any issues I can help with.

Thank you for your continuing support.
