

## School Closure Pack - Nursery Week 4

### Monday

Brenda's **Literacy** activity:

**Tell a story:** Put your toys or teddies in a circle, choose a story book, tell your toys the story by looking at the pictures.

Fiona M's **Numeracy** activity:

Looking at different items of clothing such as socks, shoes or t-shirts can you compare them and talk about similarities and differences? What makes them the same, what makes them different? Are there any items that match?

Diane's **Health and Wellbeing & art & design** activity:

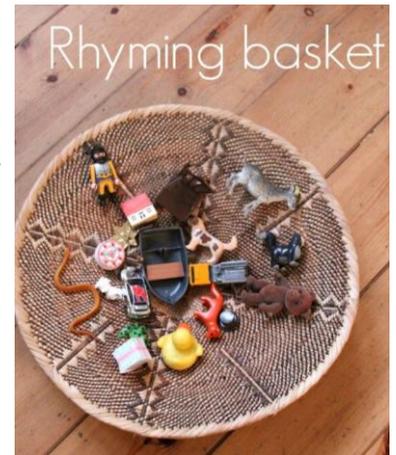

**Spring Transient Art:** Whilst out on your daily exercise go for a spring walk, collect as many natural things you can find such as twigs, stones, flowers & leaves. Can you make a spring picture using the objects you found? You could make a frame for your picture with twigs or just use the grass or floor as a blank canvas. If you want a memory of your finished art work before you take it apart to make a new picture you can simply take a photo of it. Don't forget to tweet us your picture, we'd love to see them.

## Tuesday

Stacey's **Literacy** activity:

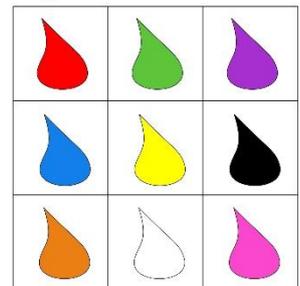

**Rhyming Pairs:** Ask an adult to help you make up some rhyming baskets using small toys or objects from round the house. When the basket has a few objects in it can you pair up the rhyming objects?

Emma's **Numeracy** activity:

**Counting Colours:** How many things can you find around the house that are red? Repeat for a different colour. Compare your results at the end. Which colour did you find the most things? Which colour did you find the least?

### Rainbow SCAVENGER HUNT

Jills **Health and Wellbeing** activity:

**Family Fun:** Make time each day to sit with your family and try to make each other smile. You could tell jokes, or give hugs, do a dance, say something kind, anything really that you think will make your other family members smile. At the end talk about what made you smile most and why.

## Wednesday

Leah's **Literacy** activity:

**Let's talk characters:** Talk about the characters in a story, film or TV programme with an adult. Who is your favourite character? Why do you like them? Which is your least favourite and why? If you could be any character who would you choose and why?

Susan's **Numeracy** activity:

**Number hunt:** Hide written numbers around the house or garden, go on a hunt to try and find the numbers. When you have found them all can you recognise any? Can you put the numbers in order?

Fiona L's **Health and Wellbeing** activity:

**A sense of spring:** Have a look around outside either in your garden or during your daily exercise. Can you **see** the butterflies and the bees? Can you **smell** the flowers? Can you **hear** the birds? What does a daffodil **feel** like? Do you have any seasonal fruits in your house that you could **taste**?

Carol's Literacy activity:

**Funny phonics:** Starting with the letter 'A' take it in turns to say " I went to the shops an bought an....." (apple) The next person says " I went to the shop and bought a....." (Bear) Keep going through the alphabet and think of items to buy at the shops the funnier the item the better. 😊

Kay's Numeracy activity:

**Play Hop Scotch:** In your house or garden ask an adult to make a hopscotch. If you have chalk this is perfect outside, if not you can use sheets of paper, pens or tape to mark out your hopscotch lines. Make your hopscotch with numbers or shapes. Don't forget to shout out the number or shape your stone landed on before you hop over it. Have fun!

Katie's Health and Wellbeing activity:

**Try a new food:** Can you try something you wouldn't normally try? Don't worry if eating it seems a bit too much - you could try some of the things from our food group visuals to explore your chosen food further.
